

Southern Arizona Emergency Communications HF Net

September, 2020 Through November, 2020

10/31/2020

This is Mike, WA9TKK, Net Control Station for the Southern Arizona Emergency Communications HF Net. This net meets Saturdays on 146.88 at 0700 (early checkins) and on 3863kHz (or other freq) 0715 Hrs MST, by authority of the FCC and by the direction of the Pima County Office of Emergency Management. This is a directed net, organized to handle emergency traffic and net training. Following roll call, I will open the net for late member and visitor check-ins. Break with your call sign at any time if you have emergency traffic. ARE THERE ANY QST's?... The net list follows:

2M & Visitors 10

Suffix	Call, Name	2M	HF	EO	Bat	BU	VHF Pwr	HF Pwr	Smtr	QTH	Notes
EAZ	K7EAZ, KEN	X			X		5			T (NW)	Thanks to Brad KE7MU for providing relays during the net as many stations could not copy me but I managed to copy most of them. Brad had one visitor but I may have copied the callsign wrong as I see no QRZ listing for KC7JTT. I forgot to note the Smtr readings for the 1st 2 checkins, N7HY and W7IJ. I had previously recorded BU as meaning backup available but now see it means the stations are using backup. So no check marks denotes the station is using commercial power. Today's topic: Discussions for antenna improvement, and NVIS antenna set up in emergencies. Several stations made comments about getting as much wire up and as high possible and making inverted-Vees or loop antennas.

Are there any visitor or late member check-ins? Again, are there any visitor or late member check-ins? Any relays? This is your call sign, NCS for the Southern Arizona Emergency HF Net. Now we'll go around again for comments.

[Closing] This net is formally closed at 0757 AM MST and will meet again next Saturday on 3865 kHz (or alternate band) at 0700/0715 Hrs MST. Thanks for your participation! Have a good week all! 73, [Sign off].
