

Hospital roll call script:

At 1320 hours or when the weekly PCOEMCOMM VHF net role call ends, the Hospital roll call should begin with this announcement:

The time is [TIME] hours and I am activating the monthly PCOEM COMM Hospital Net.

This is an exercise, repeat, this is only an exercise.

This is -----, net control station for the PCOEMCOMM Hospital Net.

This net meets on the 3rd Saturday of each month at approximately 1320 hours Mountain Standard Time by authority of the Federal Communications Commission and at the direction of the Pima County Office of Emergency Management and Homeland Security.

The purpose of this net is to test interoperability between the Office of Emergency Management and affiliated Hospitals in Tucson and surrounding areas, their radio equipment, modes of operation and the operators' abilities and response time.

This net is organized to handle emergency traffic. If there is an emergency during the net, come with your call sign and "break break" at any time. The net will cease operation until your emergency is taken care of.

This is a directed net. All traffic should pass through net control.
When using phonetics, please use the International Phonetic Alphabet.

Please accommodate the time delay between our two repeaters by waiting a couple of seconds to speak after you key your mike.

Are there any announcements or questions at this time?

I will be calling by hospital.

Call by hospital

FIRST NAMES ONLY!!

This concludes the PCOEMCOMM hospital net. All hospitals are now released at [TIME] hours.
